President's Message

A PASSION TO GIVE

Passion for Caregiving has been at the base of my work since my post-graduation degree course in Social Work got me inducted into Giving. With Mother Ensweda (head of the Swedish convent who ran the social work department in Stella Maris College, Chennai), as my role model, my immersion in social work for the past 50 years has been a reality. Almost midway in living my passion to care for older people in difficult circumstances, I realised doing what I liked was certainly my definition of freedom, but liking what I did was pure joy. Since then, giving has become my way of life without realising its presence. I follow no conscious direction but simply practise giving in all spontaneity.

The older I get the more spontaneous has been my giving. Whether it is about funds or kindness or understanding or simply giving a long rope to fathom a human behaviour – giving seems to have been my life about. In 1995 I institutionalised it by setting up an organisation to give mission to my vision. Dignity Foundation has been my way of life, followed by Dignity Lifestyle Trust that was set up in 2006 perhaps as the first retirement township in modern terms, totally different from the concept

of old age home.

I read somewhere: Cultivate a passion in your life and it forms a nucleus with power to attract to itself everything needed for its fulfilment. But my stubbornness to fulfil my vision comes from passion not position, even though I am willy nilly the head of the organisation.

Pure joy, however, is derived by creating a network of young professionals around me, 90% of whom got infected with the passion to give care to elders around. Despite Covid-19 and all its viciousness, to Dignity, only good things have happened. I am probably one of the few individuals in the world who waits impatiently for every Monday to dawn. With 27 years of the organisation functioning and growing, the air I breathe is Dignity 24x7. When it's time for me to hang my coat, I know the young colleagues around me will carry forward with even more fervour and colour. Till then I enjoy and cherish every moment of the great good of giving.

Looking Back to Looking Ahead

Covid-19 overturned everyone's lives almost overnight. There were many challenges which we endured and overcame. But they all made us more resilient and focussed on solutions rather than problems. Not just the Dignity team but also most of our beneficiaries imbibed this 'looking ahead' approach and overcame huge obstacles and set-backs.

One such example is of Venkatamma (69) from Vijay Nagar, Bengaluru, who had lost her husband 40 years ago and lived with her son. Her harsh circumstances had undoubtedly made her a strong woman, but when she was diagnosed with Covid-19 in 2021, she didn't lose hope and didn't give up on herself. She exhibited a strong will power to fight the virus and was discharged from the hospital after full recovery. While she was hospitalised, the Vijay Nagar day care centre team helped her by providing all medicines and supplements at the hospital. Her family was also taken care of by the team during this crisis.

At Dignity Foundation, our staff and members were quick to rebound from the harsh effects of the pandemic and the lockdown. As early as November 2021, our head office schedule was normalised and in the following months, one-by-one our chai masti physical centres resumed. A new programme under Dignity Care called Mobile Physiotherapy Van was also launched in March 2022. This is a one-of-its-kind programme providing free and high-quality physiotherapy treatments to needy senior citizens in semi-rural and tribal pockets of Thane district in Maharashtra.

Our gratitude and thanks to our dedicated staff and each of our members for their passion in our mission – to enhance and enrich the lives of senior citizens through productive ageing services in India.

Our Programmes:

Dignity Care is an umbrella term which encompasses all our health and welfare-focused programmes. In FY 2021-22, we operated two programmes – Integrated Day Care Centres and Dementia Day Care Centres. We also launched a new programme in March 2022 called Mobile Physiotherapy Van for senior citizens.

INTEGRATED DAY CARE CENTRES

Dignity Foundation operates Integrated Day Care Centres, one each in Bengaluru, Chennai and Mumbai. These centres run from Monday to Friday, 10 am to 4 pm within urban slum communities to provide holistic care and support services to the low-income elderly members belonging to those slum communities.

Meeting the key impact indicators of the programme, our centres provided daily nutritional drinks and wholesome mid-day meals to all the members, organised health camps within the centres and distributed free prescription medicines for common ailments (upon Doctor's advice), conducted geriatric counselling sessions, organised yearly picnic, engaged members in literacy, physical activities, Yoga and skill-building activities, among others.

Members across all three centres also received monthly dry ration kits in order to help them recover from the damages incurred during the harsh Covid-19 lockdowns. Regular home-visits were conducted by the centre manager to ensure that the members are having favourable living conditions at home.

VIJAYANAGAR, BENGALURU

In addition to the above-mentioned activities, our Bengaluru centre members engaged in arts & crafts like quilling, vegetable carving, bouquet & card making and best out of waste. Recreational and team activities like outdoor and memory games, group singing and dancing, quiz and storytelling were also organised at the centre. To help members remain connected to the higher being, members often also engage in spiritual activities like chanting Bhajans. Special days like Ambedkar Jayanti, Ugadi, Friendship Day, Diwali, etc. were also celebrated with much fervour within the centre.

Highlights of the year:

COVID19 VACCINATION DRIVE

On April 2, 19 members, comprising the first batch of members, were taken to BBMP Government hospital for their Covid vaccination. Transport was arranged to safely take the members to the hospital and bring them back. The subsequent batches of members got their vaccines on April 8 and April 9.

EYE CHECK-UP CAMP

On July 11, an eye check-up camp was organised in association with NAADA Trust and Divya Drishti Eye Hospital. 50 Members were screened for cataract and vision. Corrective spectacles were prescribed to those in need of them by the team of doctors. 35 members got their spectacles for free from Dignity Foundation. In September, another eye camp was held in association with Sankara Eye Hospital wherein 14 members were identified with cataract and 24 members were provided with free vision correction spectacles.

VISIT BY MR. AZIM PREMJI

Azim Premji, a business tycoon and a philanthropist, made a visit to the centre on the International Day for Older persons. All safety protocols were followed during the visit. After a short briefing of the centre activities, he interacted closely with the members. All members were thankful to him and the Azim Premji Foundation for their generous support to the programme. As a token of their appreciation, the members gifted Mr. Premji a photo frame memento.

FREEDOM FROM EMOTIONAL BAGGAGE

15th August, On the occasion of Independence Day, members blew tricolour balloons and wrote a line regarding something that was bothering them to a large extent. The members were then asked to release these balloons of their 'emotional baggage' into the open sky and start afresh. Members felt fresh and happy after this exercise. This was followed by face art of the Indian flag, Indian national bird and memories of the freedom struggle.

NEWSPAPER UPCYCLING DRIVE

In order to promote the 3Rs and source materials needed for our 'Best Out of Waste' initiatives, the centre organised a newspaper collection drive by printing flyers and distributing it in the neighbourhood to request members to donate their old and used newspapers to the centre. An overwhelming response followed and the members got enough raw material to prepare paper bags from the donated newspapers.

MULLIMA NAGAR, CHENNAI

The Mullima Nagar Day Care Centre remained filled with various activities broadly focussing on physical and mental wellness, senior citizens' rights and entitlements, literacy programmes, skill training, arts, crafts and recreation, among others. Festivals and special events like Tamil New Year, Independence Day, Janmashtami, Diwali, Christmas, Pongal, Holi, etc. were celebrated with enthusiasm at the centre.

During the year, the physical trainer led 80 fitness sessions for the members which included Zumba, Aerobics, balance exercises, muscle strengthening activities, simple cardio workouts, laughter therapy and simple Yoga asanas. These sessions certainly helped our members in reducing stress and remaining calm and fresh.

Highlights of the year:

COVID-19 AWARENESS CAMPAIGN

Various activities were conducted with the members to sensitise them about Covid-19 precautionary measures. These included awareness vaccination awareness talks by Doctors, a puppet show by the Madras School of Social Work and vaccination camps for members wherein 83% members received the first dose and 53% members received the second dose of the vaccine.

SKILL-BUILDING PROGRAMME

Some of our members formed a basket weaving team after receiving adequate training in this craft at the centre. The team prepared the first batch of baskets and sold them, generating enough revenue to purchase the raw materials for preparing the next batch of baskets. In this manner, the team was able to procure and successfully deliver an order for Navratri return gifts. A member, Ms. Prabhavathy told us that she had purchased 10 kgs of rice for her family with the money she had earned through selling baskets.

FIRST AID TRAINING WORKSHOP

In August, First Aid training workshop was conducted for the members. They learned about the Good Samaritan law and learned life-saving first aid techniques like CPR.

SPECIAL HEALTH CAMPS

In association with Sankara Nethralaya Eye Hospital, the centre organised an eye-camp for its members, benefitting 101 members. 25 members were identified with a cataract and were referred for further treatment. 31 members received vision correction spectacles. Dental Screening Camp was also organised with the help of Venkateswara Dental College. Health hazards of tobacco use were discussed. In all, 127 referrals were made for further treatment of various oral problems.

OTHER INITIATIVES

Other initiatives like donating walking sticks to seven needy members, opening bank accounts for 12 members, Adhaar updation, smart card application and applications for Old Age Pension scheme on behalf of 15 members were also noteworthy.

JOGESHWARI, MUMBAI

Over 100 low-income senior citizen residents of an urban slum feel motivated, free and empowered by attending the regular programmes at Jogeshwari Day Care Centre. Daily newspaper reading, yoga, meditation and physical activities engage the members productively, ensuring their healthy body and mind. Weekly need-based counselling, monthly doctor visits, spiritual talks and fortnightly sessions on health and hygiene and skill-building sessions get conducted for the members.

Highlights of the year:

HOME VISITS AND CALLS TO MEMBERS

During the second wave of Covid-19, the centre remained closed as per Government regulations. However, following all safety protocols, our centre manager would often visit the members in their homes to ensure their wellbeing and learn about their needs. Regular calls were also made to those members whose homes were not visited.

VACCINATION AWARENESS AND DISTRIBUTION OF SANITISERS

The centre created large-scale awareness and mitigated misconceptions related to the Covid-19 vaccinations. More than 75 members stepped forward and voluntarily got themselves vaccinated. Also, over 100 members regularly received free sanitisers each month to keep themselves and their families safe. We thank our donors such as Alkem Foundation who donated sanitisers to the members for one month.

NUTRITIONAL AND MEDICINE SUPPORT

As part of our effort to promote good health, the centre started providing nutritional supplements to members upon Doctor's recommendation. Medicines for commonly-found diseases and disorders were also provided to the members at no cost (upon Doctor's advice).

TAKE-HOME MEALS DURING COVID-19 SECOND WAVE

Even though social gatherings were not allowed, our centre did not stop its nutritional support to its members. By assigning time slots and maintaining social distancing along with following the mask and gloves mandate, take-home meals were provided to the members instead of the typical in-centre mid-day meal.

EYE CHECK-UP CAMP

Members had raised concerns related to their vision. Hence, an eye check-up camp along with regular blood check-up was organised for 81 members. It was found that 46 members had developed vision issues and all of them were donated spectacles as per their need. All the members also went through a blood check-up in which their count of CBC and RBS and Calcium was measured and reported.

LIVELIHOOD GENERATION SESSIONS

To build the members' skill-set, sessions like mask making, cloth bag making, cake baking, tailoring, incense and perfume making, imitation jewellery making, etc. were held at the centre. The members participated in these sessions with enthusiasm.

Dignity Foundation supported her in this difficult time with regular home visits and by providing her the required medicines at no cost. **Malati Pawar is now showing signs of improvement in her Diabetes condition with the continued support of Dignity Foundation and a hope that she will recover soon.**

Dementia Day Care Centres

Dementia Day Care Centre (DDC) is a unique programme of Dignity Foundation, which is finding increasing relevance and need across India, especially among the elderly populations. Dementia is a silent disease which is currently estimated to affect 4 million Indians, most of them aged 55 years and above. Our DDCs provide tender loving care to the members with access to

memory boosting activities, home pick-up and drop facility, physical and social activities and nutritious meals and refreshments. Our centres are staffed with trained care givers who are sensitive to the changing moods and demands of the members. At our DDCs, each day is a new challenge, which our team of dedicated staff handle with professionalism and unconditional love.

CHENNAI

Online Dementia Care Programme: As a result of the second wave of Covid-19, our centre remained closed from May to June 2021. To continue our service and commitment to our members, online dementia care programme was initiated despite many challenges. The team conducted innovative activities which helped the members to remain physically and mentally active even at their homes.

Celebrations: After the reopening of the centre, many celebrations were held such as Independence Day, Onam, Madras Day, Janmashtami, Ganesh Chaturthi, Navratri, Pongal, Christmas, etc.

CASE STORY

Upon joining the programme, Saloni M (name changed) was very afraid to visit the Dementia Day Care Centre in Mumbai. She would find it very intimidating to come to a new place and meet new people. However, our centre staff comforted Saloni M and put her at ease. They helped her to get familiarised with

the new surroundings. In her initial days, she would spend most of her time by sleeping at the centre. But slowly our staff engaged her in fun games and various activities. **Today, she is an active participant in the activities held at the centre such as exercises, memory boosting games, etc.**

Mobile Physiotherapy Van:

This Geriatric Mobile Physiotherapy Van reaches out to 500 elderly members each month who reside in semi-rural, urban slum and tribal pockets of Thane district. This new and unique programme was launched in March 2022 with the support of Rotary Club of Thane Uptown to provide doorstep physiotherapy services to needy senior citizens in and around Thane district, near Mumbai.

Dignity Support Services:

Dignity Helpline Service is a 24x7, Pan-India and Toll-Free dedicated calling service for senior citizens in distress. Our team of social workers handle calls to the volume of 5000 a year across India. Cases of elder abuse and legal disputes are handled with care and constant follow-up with the complainant after a thorough verification process to ensure that the caller is in genuine distress. Other types of assistances like trusted information, guidance, counselling, etc. is also provided on case-to-case basis. Some of the most significant cases of Dignity Helpline callers have been enlisted below -

BENGALURU

In Malleshwaram, Bengaluru, an 80-year-old lady went to a hospital for dental services as she wanted a denture. The hospital provided her a denture which was a misfit. She was unable to chew her food properly due to the pain she felt as a result of the misfitting dentures. Very soon, she felt weak and the high dosages of medicines provided her with no respite. She approached the hospital again and demanded a full refund for the cost of dentures. The hospital did not co-operate and did not agree to refund the money. She learned about Dignity Helpline Service and called for assistance. Our team contacted the hospital but they didn't cooperate with us either. We sought the help of the local police who were very supportive. Because of this, the woman got a refund of Rs. 30,000 which was the cost of her dentures.

CHENNAI

Chennai Helpline team received 124 calls in the past financial year and assisted maximum number of callers. Malini M (name changed) was one such caller who claimed that her tenant had been causing her trouble for the past eight years by refusing to vacate her house. On top of this, she had also not paid the rent of the past six months. Our helpline volunteer helped her to file a police complaint and accompanied her to the police station for the rest of the procedures. The tenant was summoned to the police station and the issue was effectively resolved since the tenant agreed in writing to vacate the residence within 45 days.

The caller shared her feedback- *“I would like to show my appreciation for the help your team rendered to me in this matter of harassment I was facing from my tenant. My heartfelt thanks for that. Dignity Foundation accompanied me and gave me great moral support and clarity in my mind. My sincere thanks to you for being there when senior citizens like me feel helpless and alone.”*

PUNE

Pune Chapter resolved 12 elder abuse cases through the Helpline service. One caller was an aged grandmother from Swargate. She called to complain regarding her grandson who used to physically abuse his grandmother and forcefully extorted money from her to fulfill his wishes. He would also coax his grandmother to transfer her property in his name. The Helpline team immediately intervened and counselled the grandson not to mistreat his grandmother for fulfilling his own wishes. He was also warned of the dire consequences of continuing such deplorable behaviour with his grandmother. The grandson quickly understood the severity of the matter and stopped abusing his grandmother.

CASE

1

MUMBAI

Mr. Anand Kumar (name changed) called our helpline to report abuse of his mother-in-law at the hands of her sons. Mrs. Satpute (identity concealed) gifted her elder son cash and gold as his share of her assets, whereas she gifted a flat owned by her to her younger son as his share. However, the younger son was given the flat on the terms that he would bear the costs of his mother's maintenance. The younger son had lost his wife, so he remarried to a woman who harassed Mrs. Satpute and forced her to leave her own house. Mrs. Satpute had approached the Police, but no concrete action was taken.

After getting a report of her situation, our team filed a case on her behalf in the Senior Citizen Tribunal of Kalyan. After hearing all sides, the court passed an order that the younger son has to allow his mother to live in the flat which she gifted him. Also, both the sons need to pay monthly maintenance of Rs. 5000 each to their mother. If they do not honour the court's order then, under the Maintenance and Welfare of Parents and Senior Citizens Act, 2007 (Section 14), further action will be taken against them.

CASE

2

MUMBAI

Mr. Kanhaiya Damodar (name changed) was harangued by his daughter-in-law who had unlawfully occupied his flat. He had made several unsuccessful requests to her to vacate his flat. Even the Police was unable to help, despite filing a house break-in case against the daughter-in-law.

As a last ray of hope, Mr. Kanhaiya called our helpline number on 19th June 2021. After filing a case and regularly following up with the Senior Citizen Tribunal, on 6th September, the Kalyan Senior Citizen Tribunal passed the order in favour of Mr. Kanhaiya, as per The Maintenance and Welfare of Parents and Senior Citizens Act, 2007 (Section 5).

The order stated that the daughter-in-law should peacefully provide the custody of the flat to the complainant within 30 days of receiving the order and if the possession of the flat is not given within the stipulated time, then the office of the Tribunal should ensure transferring the possession forcefully with the aid of the Police.

Finally, on 11th November, the daughter-in-law peacefully handed over the flat to the complainant Mr. Kanhaiya Damodar.

During the second and third wave of the Covid-19, the Pune Chapter faced several challenges such as getting a free place to start a Loneliness Mitigation Centre for the underprivileged, motivating all the

beneficiaries from the neighbouring urban slum to attend the centre and changing regulations for allowing gatherings of more than 5 people. However, the Chapter overcame these challenges and was successful in procuring a spacious centre in Bhim Nagar and Siddharth Nagar where the LMCs currently operate. After the relaxations of the lockdown regulations, more and more members are getting enrolled in the centres. 40 members were being benefitted by the daily activities of the centre as of March 2022.

Kisan Jagtap is a resident of Siddharth Nagar slum community in Pune. He has been a regular member of our LMC since its inception in 2020. Regular activities such as yoga, laughter Yoga, storytelling, memory boosting brain games, talks, etc are conducted."

Due to his physical condition,

he cannot work and earn a livelihood. He used to stay at home all day. His family started humiliating him and considered him as a burden on the family. When we asked how the LMC was helpful to senior citizens like him, he answered by admitting that earlier no one would even offer a cup of tea to him but now not only his family but his neighbours too enquire about his wellbeing.

ANNUAL REPORT 2022

FOUNDER PRESIDENT'S MESSAGE

I believe my role is about **finding my unique blueprint and expressing that courageously**, confidently, and I will also add, vulnerably. It comes down to two fundamental things: 1) establishing the Vision Mission amidst our team members; the second one is establishing a culture for our organisation that helps contribute to mission's success. And if I get it right, then I know I am 80 percent of the way there.

What is the Mission about -- not to underestimate the power of a touch, a smile, a kind word, a listening ear, an honest compliment, or the smallest act of caring, all of which have the potential to turn your life around. Can we provide this emotional comfort zone to you all living here is my goal.

First, to **the Independent Residents** who have made the choice to live here. We applaud your choice, since we, as Trustees, believe that the power of community to create health

and mental wellbeing is far greater than any physician, clinic or a hospital can provide. The Ten Principles of Eden Alternative (framed and hung in our meeting room) are like the Ten Commandments for Christians. In following the Eden Alternative, we are attacking the three plagues of loneliness, helplessness and boredom that account for the bulk of suffering in a human community. We do see that many of you do prefer solitary living despite living in a community.

But we are social beings. We are really not meant to live alone. There is a subtle difference between Loneliness and Solitude. The *Akelapan* versus *Aikaant* of the Bhagwad Gita. While one is the biggest punishment in the world, the second is the biggest gift or blessing, says Gita. This life is nothing but a journey from **loneliness to solitude!** A journey, in which the path is us, the traveller is also us and so is the destination! I would urge the residents to spend reflecting on this philosophy.

I would recommend ideally **Ageing with Attitude**. As we age, we may find we do not have the energy or ability to keep up with the active lifestyle we enjoyed at a younger age. Sometimes these physical symptoms can lead a person to become more reclusive and introverted. Keeping a good attitude can help a person to deal with the physical effects of ageing and help them to be active and social for many years.

If *Akelapan* or *Aikaant* is on the mind-

soul level, on the physical bodily level, Sarcopenia is the danger all of us in the 60+ age category should worry about. **SARCOPENIA** is the loss of skeletal muscle mass and strength as a result of ageing. It leads to gradual decline in the quality of life! Therefore, **slowly use your functional muscles.**

Next our Vision Mission for the residents in Assisted Living category

- The family of people with dementia are satisfied with the physical and medical supportive environment they see in Dignity Lifestyle. But our mission is very much more subtle and sophisticated. Even though people with dementia become unable to recount what has just happened, they **still go through the experience**—even without recall. **The psychological present lasts about three seconds.** We experience the present even when we have dementia. The emotional pain caused by cruel treatment or unkind talk occurs during that period. The moods and actions of people with dementia are expressions of what they have experienced, whether they can still use language and recall, or not. Accordingly, we deliver an action plan that integrates this subtlety. In the Snoezelen Therapy we have set up, as well as through various activities we execute for them daily in the ALC building, we seek to deliver these emotional moments of comfort.

FY 2021-2022 has been spent by the executive team in building and completing the building we call **DIGNITY LASTING MEMORIES** – our assisted living facility for Tender Loving Care. Amidst severe Covid restrictions we struggled to complete construction. Our garden contractor

Prakash gave us a beautiful park-like green space where we can situate the Centenarians – a new idea we conceptualised in order to convey our commitment to Longevity of Older Adults. Today the statues of 18 Centenarians give us their Blessings for a Long Happy Life for all residents living in the township.

On July 11, 2021 we had a memorable inauguration of the ALC building, an in-house celebration without outsiders joining us. Thanks to my Co-Trustee Gopal Srinivasan for offering Vedic Chanting on this auspicious occasion. And to all contractors and service providers for making our long-felt need for upgrading our Nightingale services.

This dream would not have materialised but for Mansi Atre whose symbiotic partnership with me gave me days of enjoyment, argument and total fulfilment. Swati Patil, our Resident Manager along with Interior Design specialist Yogita Buchade formed complementary strands, interlocked by irreverence, zaniness and fiery brilliance in the execution of colour scheme and ideas for free movement for members with Dementia. Those moments for us will remain etched in our minds.

We also refurbished the 2006 built Dining Hall with new AC and colourful walls that have added to residents' comfort. We upgraded the Kitchen with newer equipment and installed big ducts for exhaust.

Contractors and Service Providers: The Proprietor of 24 Carrots, Mr. Shyam Singh rendered yeoman service during all Lockdowns. His fulltime

staff, 95% of whom are recruited from nearby villages, are of exemplary service mentality, getting residents and visitors applause.

Garden Contractor Prakash Ghurye: In his 14th year of service to our Township, he was instrumental in creating the large Pond at the entrance. His fulltime gardeners have also been with us for 15 years. My personal appreciation to him and his Team.

Staff appointed by DL Trust: As usual the three Supervisors delivered services in the township “mentally” owned by them as their own. The vehicle drivers deserve a special mention as they adjusted to the demand of the Trust as well as residents and fulfilled all needs.

But I need to convey my special appreciation of Donors such as Inner wheel, Sweta and Pranay Vakil and their circle of friends. They have contributed to setting up of the Water Harvesting Catchment Pond, the Solar Panels and Benches for sitting in the Township. Trustees Pranay and Sweta Vakil have personally given plenty of time to talk and discuss various issues that keep coming up in our daily administration. Co-Trustee Gopal Srinivasan of course has been my fulltime advisor and also reprimander. Many thanks Gopal.

In conclusion, I would like to place on record the fact that in managing this township, one is confronted with one problem or the other on a daily basis. If everything seems to be going well, I think, obviously I don't know what's going on. Project management is like juggling three balls: time, cost and quality. And you need a troupe of

performers standing in a circle, each juggling three balls and swapping balls from time to time. I often tell my Team: that by failing to prepare, you are preparing to fail. But no matter how good the team or how efficient the methodology, if we're not solving the right problem, the project fails.

Managing projects, people, conversations and resources is all part of a puzzle that you cannot solve without the leadership mindset. And for playing this role, I rely on my Co-Trustees and the core group of management personnel. Thank you very much.
