## EVENTS & ACTIVITIES

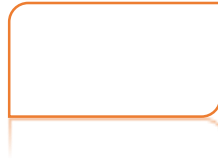

---

Y4D Foundation is a youth led organization working on empowering the underprivileged section of society. The organization has a pan India presence through its wide network of Volunteer Chapters all over the country. Since inception, the organization has been concerned with youth and children which brought about significant changes in their lives in terms of education, skill training, career counselling and sustainable livelihood. Of late interventions on Food Security has been added high on the organization's agenda under Health and Nutrition projects. All categories of beneficiaries belong to the underprivileged sections of society. We focus on ensuring continued learning and practice of organic kitchen farming in

*Good Health is Good Business*

# Aayushman Aadhar

A CSR initiative of Aadhar Housing Finance Ltd.

# Objective

A Free medical camp can be considered as a life free medical and surgical services to poor communities living in rural or urban areas by a mobile team with varieties of medical specialized services. It is the moral responsibility and duty of their incomes, race or social status. The main objective of a medical camp is to provide initial care to people in life conditions which reflect the unique strengths and goals of medical ethics. Other objectives

- 
- 
- 

# Summary

Health camps are set up with a sacred aim to bring awareness amongst the deprived population of the country who have no access to basic healthcare services or knowledge about the diseases they are suffering from. So, medical camps provide free medical care, medicine to the unfortunate people and refer for specialized treatment or surgery whenever it is required. These camps make sure people are getting healthcare at the right time, and seeing the doctor early enough before a small health problem turns serious.

Medical camps are conducted by health professionals to carry out a limited health intervention amongst the underprivileged community. The poor attend these camps to get a health checkup and treatment. Getting the appropriate kind of health checkup is vital for every human being and while considering it, some important factors like age, lifestyle, family background, and risks are taken into the account. Health examinations and tests at the early stages of the illness can help to cure it faster and save a person from any damage. One can live longer and healthier only when the individual gets the health checkup, screening, and treatments. Even the most basic checkups

are essential for the poor population overall physical examinations which include blood pressure, heart rate, weight, height, assessment of the functioning of vital organs like the heart, lungs, digestive system, liver, kidneys and the immune system. Free medical camps are organized to provide healthcare services to the poor population who earn a meager income and cannot afford expensive healthcare services offered by hospitals or clinics.

# Ambulance

---

## Aayushman Aadhar

## Digital Training & Resource Center

---

In today's world technology is advancing with a rapid pace and it has become a very make use of it on a daily basis to improve our living. With such rapid growth; our dependence on various technologies, especially those involving digital elements, is expected to increase. In order to accomplish specific tasks, it is knowledge and practical skills to use digital platforms. Including such modules of training along with conventional education will empower our students to use this skill to accomplish tasks in daily life as well as to acquire new skills from the digital latforms. This will ultimately help them to evolve themselves in a more competitive human

---

Along with our seed to seed program training sessions and weather we have launched a pilot with the aim of establishing an input management system, such as contract farming and further important items to get the best price of products for sale. Y4D guides farmers on the various market available for the sale of produce and how to export directly without the involvement of any intermediaries to maximize profits on their produce. We are also aware of the various schemes available to the government to promote

## Outcome

---

Baby corn farming and training in sustainable agriculture is increasing the capacity of farmers and this will result in sustainable and profitable farming. Improved and maintained crops increase crop yields improved to increase by 45%. Increased production will give farmers extra money, which will put money in the hands of farmers, increase the level of household income and reduce poverty. Farming will be less costly and use local

This translates into increasing the ability of farmers to afford essential commodities. The ultimate goal of the project is to ensure farmers as lakh farmers by the end of the project economic status of farmers can bring respect and empowerment; Dignity and will help reduce the frustration among minority farmers and from now on we manage the services of 57 beneficiaries through this project.

# Healthy Child, Healthy India

As per donor agency guidelines we had distributed a total 63751 20200 MNP Sachet boxes. Out of those 51479 & 12272 cans were 400 gms and 200 gms respectively. Entire distribution was held in orphanage schools, underprivileged and low

## *Distribution Procedure*

- Special Workshop on Handling and storage of cans and MNP sachet to guardians of respective beneficiaries.

Factors of the workshop was handling of cans and MNP sachet. Following instructions were passed to volunteers before workshops and we had monitored

- Awareness of guardians on using Enfagrow and Maha Shakti vitamin & Mineral powder, its storage is done before donating the product.
- Guardians & children will be required to use boiled water or milk to consume Enfagrow powder and consumed in the cleaned pots/glass.
- For Maha Shakti vitamin & Mineral supplement powder can be added i
- Once opened the tin it should be closed tightly and stored at room

## Fight against Corona

Covid 19 continues, another crisis hit the nation really hard of providing the basic necessities of food & shelter to thousands of migrant workers who are stranded in their respective workplaces due to the sudden lockdown announced to read of the deadly virus. The marginalized sections of the society are severely affected with no money to buy food & essentials, no source of income to pay rent & buy medicines. Without any access to provisions, these economically weaker sections ng help from the government and also the general public at large.

## Efforts

---

Y4D Foundation has been actively involved in conveying the message to fight the pandemic to the masses. This awareness campaign called '5 steps to stop the spread of the disease'. The 'Fight COVID 19' campaign promotes 5 key steps for people to follow to protect their health in line with WHO guidance, focused on hand washing (washing hands with soap water for 20 seconds), not touching your face, physical distance and staying at home if not feeling well.

Support extended to informal workers and specially affected sectors comprising miners, construction workers, and their families in the form of ration & essential supplies. These 800 families belong to Udaipur, Bhilwara, and Rajsamand districts of Rajasthan. In collaboration with local NGO SP Seva Sansthan and funding partner Sarjan SCF, Hong Kong, Y4D Foundation reached out to these underprivileged families which are bearing the brunt of COVID19 lockdown. More support is being solicited for providing immediate aid to workers who have been laid off and for

# Support

---

Thousands of migrant workers across all states are bearing the brunt of lockdown since March 25, 2020 which was announced to contain the COVID 19 crisis. People belonging to groups, women carrying small children had started marching towards respective hometowns having lost their jobs, no shelter above their heads, no money to buy food & medicines, hungry, weary and feeling lost. Ever since the state governments sealed the stricken laborers working on daily wages found themselves penniless

---

FeedTheHungry campaign in Metropolitan Region in partnership with donors like Mobiliya, Quest global, Myprotein and TheHut.com UK. Y4D Foundation volunteer reached out to daily wage workers from underprivileged sections of society who are facing difficult times in Corona spread. Y4D Foundation through its volunteers reached out for Feed the Hungry campaign.
