Overview

The devastating second wave has left a deep scar on India. As the country begins to unlock and people are trying to rebuild their lives, the urgent need is to provide immediate food sustenance. To fill this ever-increasing gap of accessibility of food, DevPro-INDIA donates launched its mega #FoodForSurvival Mission across 13 states in India. We kick-started our campaign with the help of Canada-India Foundation in Jorhat, Assam, serving wholesome grocery kits to 270 families from ultra-poor communities.

Our partner NGO, North East Affected Area Development Society along with their volunteers was able to reach the families despite mobility and containment zone adversities. As part of our larger campaign, we are in the process of mobilising more resources to reach another 6600 deprived families.

Activity

- The beneficiaries were identified after consulting many community based organisations to ascertain the poorest of the poor families from 4 villages in Jorhat, namely Kawaimari Gohain Goan, Kolbari, Kumarbheti, Bhogamukh
- The families were further endorsed by the Sarpanch of the village
- Beneficiaries came from low income group as most of them are daily wage earners. Upon being directed as a containment zone, all activities in these areas have come to an absolute standstill, as all entry and exit points have been restricted. Some families are also small and marginal labourers
- The distribution work carried out by NEADS has been extremely effective to reach the poorest of the poor communities, and has also been appreciated by the District Administration.

Message from INDIADonates

"In times like these the support from Canada-India Foundation has immensely helped DevPro-INDIADonates to reach to communities who are affected by multi-dimensional poverty. It gave the added impetus to the program to amplify our reach and maximize the output. I m truly thankful to CIF for this generous support and timely intervention."

– Mr Sandeep Sharma, Founder
