

Rural Organization for Social Advancement

Kakarmatta, B.L.W., Varanasi

Brief Report

On

"Prevent Malnourishment of Children in Deprived Musahar Community ".

ROSA Sansthan is a registered social organization. Over the last 18 years the organization has been providing welfare services to the people, in eastern districts of Uttar Pradesh. They work on issues of health& nutrition, awareness on education, livelihood support, Initiation on Child protection, relief help, development of girl child and woman and awareness on COVID vaccination, in rural areas. organizational activities are being organized with the support, discussion, evidence, and coordination of local concerned govt. departments.

"Prevent Malnourishment of Children in Deprived Musahar Community " (Mata Sabari

Poshan Kitchen) started on 26th Jan. 2022 in Talara Village Chakiya, Chandauli. The program began after a survey to know the actual health status of the children among SC specially Musahar community and found 13 children between 0 to 5 years are malnourished. These children were deprived of proper food as their parents used to go for labour work in the morning and they return late at

evening. During the period the children got only one meal in form of breakfast/ lunch.

Considering the dwindling condition of the children, ROSA Sansthan had decided start the program Sabari kitchen. Concept of this program is to provide food filling the long period of gap to these children.

The program is running smoothly with progress being observed on regular basis. Health of the children has seen an improvement. The nutrition is being provided according to the test and nutrition value. It is in form of seasonal fruits/vegetables and locally available grains.

Under the Sabari Poshan Kitchen program nutrition kits have been distributed among the family of 13 children. This will help the family to provide much needed nutritious food.
